\$200M+ Revenue Op Built From Zero **#1** National Ranking **112%** Quota Back-to-Back **29%** Churn Reduction **25 yrs** Revenue Track Record

PROFESSIONAL SUMMARY

Revenue Executive | CRO | VP of Sales | Regional President — fluent across the full SaaS / subscription metric stack (ARR, MRR, NRR, GRR, ACV, LTV, CAC). Built a greenfield territory from \$0 to a \$200M+ recurring-revenue operation with full P&L ownership, head-to-head against corporate-owned competition. Operating pattern: invent in-market, prove with unit economics, pitch up the chain, adopt company-wide.

SIGNATURE WINS

- **\$200M+ Built From Zero — Full P&L:** Grew a greenfield market from \$0 to a \$200M+ recurring-revenue operation delivering \$6M+ net profit/yr — full P&L across 25+ territories spanning B2B, B2C, inside, outside, call center, and events.
- **#1 Nationally — 112% Quota, Back-to-Back:** Youngest Regional President in company history (CEO-nominated over 10 internal candidates); drove the commercial org to #1 nationally with back-to-back record-breaking quota attainment.
- **Revenue Innovations Adopted Company-Wide:** Invented a \$20M+ VAR division, a mobile-showroom events channel scaled to 40 markets, and a zero-cost comp redesign that cleared \$100M+ in aging inventory — each proven in-market, then rolled out enterprise-wide.
- **Retention & Conversion Engine:** Launched Tech Protect to the #3 MRR driver and cut churn 29%; lifted NRR 20% via a \$35 service-fee line; drove +35% conversion, 1,250–1,750 net-new customers/month, and forecast accuracy within 10%.
- **Built the Team & the Tooling:** Scaled a 225-person org from zero (5,000+ hires, 95%+ retention, ramp cut 3x); 2,000+ hours in Claude Code building pulservevops.com — a RevOps knowledge platform and #1 source of truth for GTM leaders.

EXPERIENCE

Chief Revenue Officer — Fractional | CRO Syndicate (Partner) & Pulse Rev-Ops™ (Founder) 2025 – Present

Fractional Executive Revenue Practice · Annapolis / DC / Baltimore · Remote & On-Site

Rapid-deployment fractional CRO for growth-stage & PE-backed B2B/B2C orgs — **90%–117% MRR growth per engagement**, full-funnel RevOps stacks (Salesforce, HubSpot, Gong, Clari), MEDDPIC qualification, and board-level forecast discipline.

Regional President | CRO-Equivalent Scope · Recurring Revenue & Full P&L 2010 – 2025

"Top Trending Private Growth Executives" — Chief Revenue Officer | April 2026 | TheExecutiveReview.org

THE OPERATOR

Revenue driver. Bridge builder. Executive at heart, operator in practice. Twenty-five years on the track. There's not a revenue KPI I can't drive — ARR, NRR, GRR, CAC, LTV, pipeline coverage, win rate, ramp time, churn, expansion, forecast accuracy. Give me the problem; I'll have a solution by Friday. Sometimes the answer is a product, sometimes coaching, sometimes rolling up sleeves and doing the work nobody else will. The translator between functions — taking complicated revenue ideas and condensing them into one-sentence orchestrations the whole company can follow. Finance, marketing, ops, sales, the board: all moving the same direction, understanding the same thing, by Friday. Sees it. Solves it. Scales it.

PROFESSIONAL SUMMARY

Revenue Executive | CRO | VP of Sales | Regional President | Recurring-Revenue Operator, Fluent Across the Full SaaS Metric Stack.

Revenue operator with 25 years architecting recurring-revenue businesses — most recently as Regional President at Cellular Sales, an independent authorized retailer running a monthly-recurring-service operation (subscription-style service revenue, expansion revenue, churn economics) and competing head-to-head against corporate-owned stores. Built a greenfield territory from \$0 to a \$200M+ revenue operation with full P&L ownership — no corporate safety net, no enterprise marketing machine, no lead flow handed down. Fluent across the full SaaS/subscription metric stack (ARR, MRR, NRR, GRR, ACV, LTV, CAC, bookings, expansion, churn) and the operating pattern: invent in my market, prove with unit economics, pitch up the chain, adopted company-wide. Outcomes: forecast accuracy within 10%, pipeline tripled to #1 nationally, conversion +35%, and 1,250–1,750 net-new customers per month. Visualized at pulserevops.com.

EXECUTIVE IMPACT & CAREER HIGHLIGHTS

- **\$200M+ Revenue Operation — Built from Zero:** Architected a greenfield market from \$0 to a \$200M+ revenue operation across 25+ territories plus B2B, B2C, inside, outside, call center, and event-based channels — defining ICP, sizing TAM, designing GTM motion, and delivering \$6M+ net profit annually with full P&L ownership and recurring-revenue economics.
- **#1 National Ranking — 112% Quota, Back-to-Back:** Youngest Regional President in company history — personally nominated by the CEO after outcompeting 10 internal candidates — then drove the commercial organization to #1 nationally with back-to-back record-breaking quota attainment.
- **Invented It. Proved It. Sold It Up the Chain. They Adopted It Company-Wide.:** Pattern: identify friction in my territory, build the fix, prove it with unit economics, pitch outcomes up the chain, watch it rolled out company-wide. Repeated across mobile showroom events channel, aging inventory comp redesign, and the full GTM playbook. Not a committee member — the operator who built what the committee adopted.
- **\$20M+ New Revenue Column — Invented VAR Division:** Created a first-of-its-kind Value-Added Rebate Division by leveraging manufacturer and vendor partnerships — generating \$20M+ in annual revenue added directly to P&L with zero incremental headcount.
- **Subscription Product Launch — Tech Protect to #3 MRR Driver:** Conceived and led the zero-to-one launch of Tech Protect — scaled to the company's #3 MRR driver, reduced churn 29%, and drove NRR through systematic land-and-expand and attach-motion expansion revenue playbooks.
- **AI-Native Revenue Executive — Built pulserevops.com:** 1,000+ hours hands-on with Claude Code shipping production GTM tooling, revenue dashboards, branded Sales Revenue Engine demos, and commercial web properties. Flagship: pulserevops.com — my own AI-built knowledge platform, the #1 source of truth for RevOps and go-to-market leaders, spanning the full RevOps domain with cited, diagrammed entries. A revenue executive who builds the tooling, not just approves the budget.

PROFESSIONAL EXPERIENCE

Chief Revenue Officer — Fractional | CRO / CSO / CGO / COO / CCO

CRO Syndicate — Fractional Executive Revenue Practice (Freelance) | Annapolis, MD • Remote — June 2026 – Present

Scope: Growth-Stage & Private-Equity-Backed Organizations • B2B & B2C • Rapid-Deployment Commercial Leadership

- **Rapid-Deployment Commercial Leadership — Built for Valuation, Not Quick Fixes:** Provide rapid-deployment fractional revenue leadership for growth-stage and private-equity-backed organizations across both B2B and B2C models — architecting durable, repeatable revenue systems that drive sustainable growth and long-term valuation outcomes rather than short-term fixes.
- **Inflection-Point Specialist — Integration, Transitions, Stalled Growth:** Engaged at critical inflection points — post-acquisition integration, leadership transitions, and stalled growth — diagnosing complex commercial challenges quickly, executing side-by-side with management, and leaving behind refined processes, high-performing talent, and a disciplined operating cadence.
- **Full Revenue Lifecycle — Org Design, Operational Excellence, Governance, Visibility:** Span the complete revenue lifecycle: organizational design (sales structures, coverage models, and multi-channel B2B/B2C revenue operations); operational excellence (pipeline health, conversion metrics, and forecasting discipline across direct and indirect channels); strategic governance (pricing strategy and deal governance to maximize recurring-revenue economics); and visibility (advanced tech stacks delivering executive- and board-level transparency into performance).

Chief Revenue Officer — Fractional | Revenue Architecture & GTM Strategy

Pulse Rev-Ops™ | Fractional CRO & Executive Revenue Practice | DC / Baltimore, MD — October 2025 – Present

- **Day-One GTM Operator — 90%–117% MRR Growth Per Engagement:** Twenty-five years of building, testing, and scaling revenue architecture across a \$200M+ revenue operation — now packaged as Pulse Rev-Ops™ and deployed to VP of Sales-led teams, founder-led SMB operations, and growth-stage companies. Delivers full revenue transformation on day one: ICP analysis, TAM sizing, pipeline architecture, demand generation, conversion rate optimization — driving 90%–117% MRR growth per engagement, forecast predictability within 10%, and replacing founder-led selling with a VP of Sales-caliber revenue engine built to compound.
- **Revenue Intelligence Stack — Enterprise-Grade Playbook, Any Scale:** Standardized full-funnel commercial stacks (Salesforce, HubSpot, Salesloft, Iemlist, Outreach, Gong, ZoomInfo, Clari, Statflo, Snowflake, Braze) with Power BI dashboards, MEDDPIC qualification, ABM-driven outreach, and Social Selling (LinkedIn Sales Navigator) — eliminating 20+ manual hours per week and doubling qualified pipeline velocity.
- **pulserevops.com — #1 Source of Truth for RevOps Leaders:** Built and operate pulserevops.com — my own AI-built knowledge platform, positioned as the #1 source of truth for RevOps and go-to-market leaders. Thousands of in-depth, cited entries spanning the full RevOps domain, with diagrams, comparison tables, and deep-dive clusters; live Q&A; and a public knowledge library engineered for Google AI Overviews and ChatGPT search visibility. A revenue executive who builds the resource, not just references it.

Regional President | CRO-Equivalent Scope | Recurring Revenue & Full P&L Ownership

Cellular Sales — Independent Authorized Retailer of Verizon | Annapolis, MD / DMV — 2010 – 2025

Scope: Independent Operation • \$200M+ Revenue Operation • \$84M+ Sales Comp Budget • 225-Person Org • 25+ Territories • B2B / B2C / Inside / Outside / Events • Full P&L Ownership

- **Independent Authorized Retailer — Built a Recurring-Revenue Business:** Cellular Sales is an independent authorized retailer — not a Verizon subsidiary. Ran the operation on recurring-revenue economics (monthly service, expansion revenue, churn), building the DMV territory from zero with no corporate marketing budget, no enterprise lead flow, no brand-recognition tailwind. Every dollar of the \$200M+ revenue operation came from operator execution against corporate-owned competition.
- **Youngest Regional President — CEO-Nominated:** Outcompeted 10 internal candidates to become the youngest Regional President in company history — personally nominated by the CEO — then immediately drove the organization to #1 nationally with back-to-back 112% quota attainment.
- **P&L and Board-Level Accountability:** Full commercial executive of record for a \$200M+ revenue operation delivering \$6M+ net profit annually — 112% back-to-back quota, LTV and CAC optimization, and board-level investor reporting across all commercial functions. Contributed to enterprise strategy as an advisor through Cellular Sales' \$500M-to-\$3B parent-company scaling — operating-level input on GTM architecture, channel design, and revenue innovations adopted company-wide.
- **Mobile Showroom Events Channel — Piloted in My Market, Rolled Out to 40:** Invented a net-new event-based revenue channel — selling direct at trade shows, state fairs, and community events. Ran the pilot in my territory for 12 months, proved unit economics, pitched up the chain — adopted as a company-wide standard with dedicated KPIs and comp plans. Scaled across 40 markets producing \$150K–\$2M in annual revenue per market.
- **\$100M+ Aging Inventory Playbook — Built in My Market, Adopted Enterprise-Wide:** Identified the root-cause friction behind aging inventory — split commissions disincentivizing reps from selling SKUs outside their accounts. Engineered a zero-cost comp redesign reclassifying aging units as non-shared product, letting any rep close them for full commission. Result: reps organically pulled aging inventory through the channel, clearing \$100M+ in stale product with no markdowns, no promotions, no incremental spend. Adopted as the company-wide standard.
- **Revenue Intelligence & GTM Innovation — Conceived in My Market, Became the Company-Wide Standard:** Conceived and proved revenue innovations before the organization recognized them as opportunities. Built the playbook: hire for revenue fit, 3x faster ramp, coach to metrics, structured pipeline, outbound sequencing at scale via Salesforce, Salesloft, Iemlist, Statflo, Gong, Snowflake, Braze, Power BI. Adopted as the company-wide GTM standard. Outcome: forecast accuracy within 10%, pipeline tripled to #1 nationally, conversion +35%, 1,250–1,750 new customers/month.

- **225-Person Org — Built from Zero:** Scaled Enterprise, Mid-Market, and SMB teams (AEs, BDRs, SDRs) via a Hiring-to-Revenue Playbook — 5,000+ hires, KPI and comp plan design, territory management, capacity planning, 95%+ retention, ramp time cut 3x in 90 days.
- **Pipeline, Win Rate, and Deal Velocity:** Drew on a vast playbook — my own field-built GTM systems alongside proven go-to-market methodologies (Challenger, Solution Selling, C.L.A.S.S., Earn the Right, MEDDPIC, Sandler, MAPs) — to drive 35% higher conversion and triple recurring-revenue pipeline to #1 nationally — ACV \$6K–\$10.8K, 1,250–1,750 gross new customers/month across 5,000–7,000 total closed transactions.
- **Multi-Channel Revenue Operations:** Directed direct, field, inside, inbound, outbound, ABM, channel, and partner sales plus call center and event-based channels across B2B and B2C — doubling TAM penetration from 15% to 30% through ICP-aligned segmentation.
- **\$35 Service Fee — Monetized the Value Moment, Lifted NRR 20%:** Diagnosed structural margin erosion as accessory attach commoditized; recognized the data, photo, and media transfer moment as untapped, high-willingness-to-pay revenue. Architected and implemented a mandatory \$35 service fee per device activation covering all media migration. Result: NRR +20%, accessory margin shortfall offset, new high-margin recurring service revenue line built into every transaction with zero added headcount.
- **Commercial Org Scaling — Multi-Region Growth Operations:** Directed full commercial expansion lifecycle across 25 territories plus 3 market re-launches — resource allocation, territory assignment, partner management, and go-live sequencing from market selection through full productivity attainment.
- **NPS Turnaround — 32% Lift:** Launched the “Yes” Campaign — moving the organization from bottom quartile to #1 nationally in customer satisfaction in a single cycle.

Regional Digital Outlets Manager

Cellular Sales — Independent Authorized Retailer of Verizon | Louisville, KY — Kentuckiana Region — 2005 – 2010

- **#1 National Sales Producer — 7 Consecutive Years:** Top-ranked regional producer and Top 10 nationally — 7-figure annual performance earning accelerated promotion to executive leadership.
- **Market Expansion:** Doubled market penetration across 20+ territories — doubled headcount, revenue, and total market share in 16 months.

Digital Outlets Manager

Cellular Sales — Independent Authorized Retailer of Verizon | Louisville, KY — Kentuckiana Region — 2003 – 2005

- **300% Profitability Turnaround:** Transformed regional operation from average to #1 ranked through operational discipline and culture-first leadership.
- **3x Account Growth:** Tripled active accounts from 1,000 to 3,000 with 95%+ employee retention.
